About Us

ASTEN JANT began its operations in 1989 with the production of forklift wheels. Over time, in response to increasing demand, the company expanded its product range to include wheels for construction machinery, tractors, agricultural vehicles, military vehicles, and custom application wheels. Today, our annual production capacity has reached 100,000 units.

In addition to domestic sales, we regularly export to a total of 36 countries across Europe, Asia, the Americas, and Africa.

Our company's key competitive advantage lies in its ability to provide continuous production across all wheel groups, with flexibility in production quantities and custom dimensions.

With a total production facility area of 16,500 m², we continue to enhance our production technology and capacity, maintaining our momentum in manufacturing.

Our Vision

Our priority is to strive to be the best, advancing by continuously improving ourselves while maintaining our affordable pricing and commitment to the right quality policy.

Our Mission

We embarked on this journey with the goal of being the best in wheels, advancing while maintaining our presence in various fields.

Our Goals

Providing excellence in quality, service, and distributor relations is our core objective.

4 Sectors

We manufacture 3,000 different types of wheels.

Agricultural
Wheels

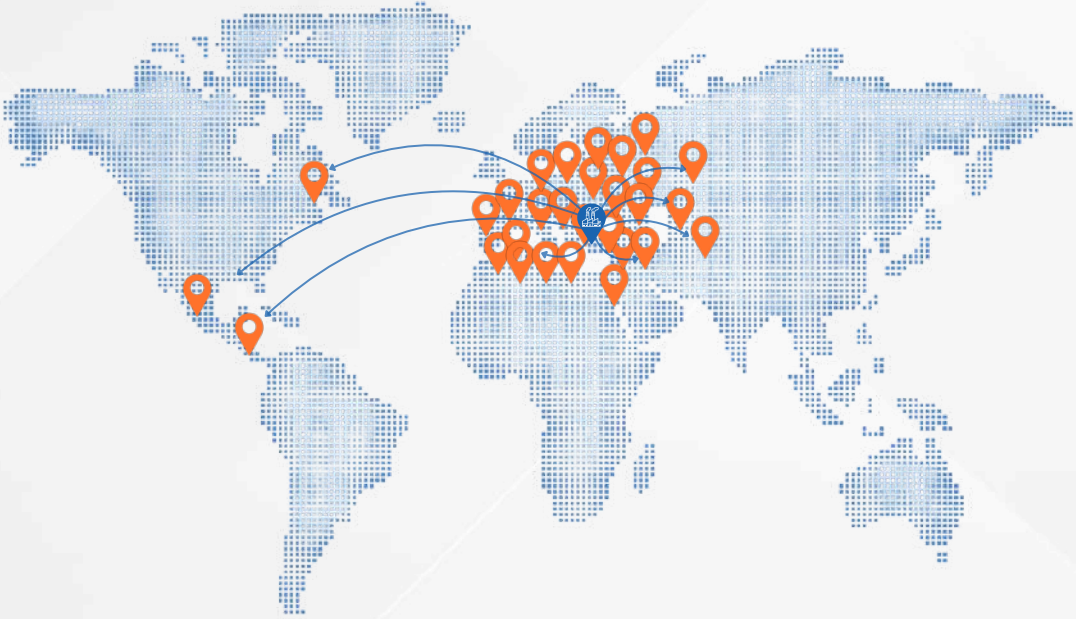

Construction
Machinery
Wheels

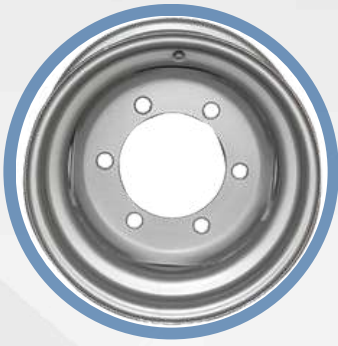

Industrial
Wheels
